The preservation of Mouchette

by

Martine Neddham

Preservation = Creation+Distribution

In online art the distribution cannot be separated from the creation itself: it is all the same data.

(For example in a new work you test the compatibility of a script to all browsers: if it doesn't work you don't use it)

Mouchette.org is constantly **“being preserved”**, otherwise it wouldn't be there to be visited. Just like all websites are:

- paying the web host,
- re-registering the domain name
- fixing outdated code, dead links... etc...

But more importantly, Mouchette is **preserved “alive” and constantly growing.**

Mouchette is **“preserved”** when the website is active, receives contributions, is moderated and repaired to maintain all its interactions.

Mouchette Constantly Growing

The website generates a lot of data inside the domain name and outside of it, all of it being “**Mouchette**”, and being constantly growing, modifying or disappearing

1-Inside ==>> The database system, posts of visitors, and more

2-Outside ==> about.mouchette.org, references found online, etc...

I call this **Generative Preservation**

GENERATIVE PRESERVATION

- a preservation that allows the website to change constantly
- when there is a proliferation of material and data
- when the growing ability is being preserved
- preservation itself generates more material and more data
- the generated material may diverge from its origin
- there is no original, but an origin

Generative preservation: 1- Inside Mouchette

All is made to attract reactions and content from the visitor:
text fields, and provocative images or narrations, etc...

Any suggestion for suicide kit?

What is a suicide kit ?

(some people already know)

**It's something that allows children of all ages to play suicide. It's a new toy.
It comes in a box, with various elements that let you pretend you can kill yourself in all kind of
different ways.**

It's my own invention !

**I have very little experience in the subject, and there's hardly any material available for children to
learn about that question. So please, will you help me?**

What is the best way to kill yourself when you're under 13 ?

14 May 2018	<u>no</u>	chug bleach
07 May 2018	Frejo	There is a new demotivational audio book download. Just listen to it over and over. Its the one titled, you stupid worthless peace of dog shit, just die already. 5 hours of this will make you eager for a funeral
06 May 2018	Jonathan Darby	I have a huge problem. I went to hang out with a few of me mates at the arcade. Later we went to me best mates house. His mum put something in all me mates drinks and they went to sleep. Then she got me feeling a wee bit tipsy and then she seduced me. Now she is saying she is pregnant and I gots to quit school and get a job so i can pay for doctor visits and diapers. She wants me to move in with her. I am only 14. This bitch messed up my life.
06 May 2018	Franklin	I have been brainstorming ideas. Ideas that this website has inspired me to do. It will be titled the suicide chronicles. The intro to the docudrama will be two dead corpses kissing and playing grab ass. Then it will be cctv footage from people living inside various institutions such as prisons and asylums. But only footage of suicides. The goal of the film is to put pressure on the vile institutions to have better treatment for those being held against their own will. This video will then be marketed to people who kidnap people so they can have the people they kidnap watch it everyday. I am expecting big returns on this investment.
05 May 2018	Liam fucking Neesan	It seems like the newest fad to have your face pierced until you look like a rail road track. If this is you, try piercing your eye ball. If you use an ice pick and go straight in and back, it should work.
05 May 2018	mohammed	be reading at internet do help out for all but not 70 min

18 Apr 2018	Traveling salesman	As a traveling salesman i get sent on assignments that some times are boring, sometimes they are dangerous. But this assignment is probably going to be the death of me. I have to go to china and wear a fork costume. I give away a fork per person i speak with. The chinese are very resistant to the western culture of the fork. They are prefer chop stics. They want me to sell forks in china.
15 Apr 2018	101 ways to die everyday	Oh my little suicide enthusiasts and hobbyists, why do you fret? Don't you know the weather is becoming more violent and deadly? Don't you know war is coming? Can you not see war brewing on a global scene? The animal rights activists will release all the animals from the zoo and bears lions and tigers will be in every major city with a zoo. The end of the world is coming. You dont need to kill yourself. If you are not burned alive by meteor showers or eaten by a tiger the cannibals will get you. Sink holes. Tsunamis. Cancer from drinking city water. Nuclear winter. Soon millions of dead human remains will be everywhere. A new sickness every few months and now dead body bacterial field. You will die sometime anyway. What's your rush?
13 Apr 2018	The great escape	My little fly. Buzzing on my eyelid. Watching on my wall. How i wish you would get 1000 of you friends to grab me and fly me up in the sky, carrying me far away. To my own island in the pacific. We can eat coconuts and crab everyday as we watch the tide roll in.
25 Mar 2018	Mortimer Jones	I have been feeling a bit peckish lately. I made my trip to the moon with my backpack rocket boosters. I have all the pictures and videos soon to be up loaded to youtube. When i re-entered earths atmosphere all of my clothes caught fire and 18 seconds later i plunged into the pacific ocean around 300 miles west of Hawaii. I broke my spine in 14 different places and my eyebrows are completely burned off. I look so funny with no eyebrows. I was rescued by a blue whale. He swam under me and pushed me to the surface and brought me here to the hospital in honolulu. I am laying in a hospital bed on the beach sipping pina coladas with a morphine drip i.v. a nurse comes every 6 hours and gives me a sponge bath and a shot. They said i can not do any fishing right now because of my broken back. I even told them the story how i saved an elephant stuck in the mud with my back broken when i was on an expedition for hunting tigers in India. They still dont want me doing any fishing. Any way my dear friends i will heal up and when i can go on another suicidal journey i will keep you posted. This is Mortimer Jones. and good

believe you are really dead, though I may have destroyed only a part of your digital personality. I would be interested in hearing your ideas about this situation but outside this web page. Do you have a real mail address where I can send you my thoughts?

This is my greetings for today : dead or alive your spirit is still here and that's what really matters!

Annette**16 Jun 2005*****you are a lost soul of a fl*****Kraken****7 Dec 2000**

Wellcome to hell. I'll be your demon for the evening. You'll find relating your troubles to the souls of those damned who surround you quite infuriating, I'm afraid. You see, we care only for ourselves and the immeasurable pain in which we are forced to writhe in perpetuity. You are but a single fallen fly, one of millions condemned to forever relate their tale of woe to the deaf ears of those who, like you, are paralyzed by that perverted pride that stems from the selfish and petty concern for the happiness of the flesh.

The back-offices

- Each work has their own database manager with a custom interface, each made at different periods.
- They are used to moderate or edit the contents of the posts and publish them, or not.
- They are custom interfaces, created between 1999 and 2004, without CMS.
- They only process what I need to process, they are simple.
- Yet they have no info system, I am the only one who knows what the interface does.

<input type="checkbox"/>	Edit	23-04-2018	08:39	Darrel		The best thing for you is whenever the thought of suicide pops up to use self discipline and stop that thought and think about some thing else. Dont give into those urges. Don't give in to those burning desires to end your life. The more you think about it the higher the chance of you attempting suicide. And an attempt at suicide is making out with death. If you don't stop the making out part it will progress to foreplay, and before you know it resistance is futile and you will loose your death virginity. You can only be a good little virgin once. After that you are maggot food.	offering help
<input type="checkbox"/>	Edit	23-04-2018	02:49	Sean McAllistor		I have an upcoming art display at the Bozar Center in Brussels. May 22, 2018. Several artists including myself have done a collaboration of art works to be included in this gallery. The art works will be auctioned about a week once the gallery is removed. 100 % of the money will be donated to medical research for neurosurgery, more specifically pain management for serious pain. The goal is to get people pain relief without having to use addictive medications. I have lost someone to suicide because they broke their back and became addicted to oxycotin. They could not deal with the withdrawals and the doctor wouldn't give anymore medication.	offering help
<input type="checkbox"/>	Edit	09-04-2018	07:40	You dont have to.		Suicide is a bad joke the devil tricks you into playing on yourself. The devil wants you to killyourself so he gets your soul and you go to hell with him. A lot of the time we think there is no hope in a given situation however when it all plays out its not as bad as we thought. There is always a better way. Something can be done to make it better. No matter what. But you have to try. You have to do what you can to make it work. If you killyourself you are giving up.	offering help
<input type="checkbox"/>	Edit	01-04-2018	00:39	Pryme	pryme13@gmail.com	If you need any help or support you can contact me... Never consider suicide! You got a long and wonderful life to live.	offering help
<input type="checkbox"/>	Edit	12-03-2018	19:18	black halo		Please just believe, that despite all the ambiguity, that you will be okay. The future is independent from the present, and things are constantly flowing and changing. This pain will not last forever, just how everything must die at some point. Sometimes you just feel so overwhelmingly broken that all you can do is look up at the sky, reach up, and try to rip it apart. Deep inside of you, things feel all twisted and painful. Time will heal your wounds.	offering help

another admin interface

The Mouchette.net

- The Identity-Sharing Interface is a publishing system inside Mouchette where users could create parts of the mouchette site
- It uses 2 complete publishing interfaces
- One is for the user, with a funny old-fashioned look
- One is for the admin (me) with a default design and an extensive set of functions
- All of it is accessible and potentially usable, but many functions are not working any more

MOUCHETTE!

Welcome to your Mouchette interface !

Hi **mouchette**, you are in your Mouchette interface.
The mail functions do not work at the moment. I am really sorry about it and I will do everything to have it fixed as soon as possible. Hopefully, all the rest works. If there is anything that has changed or that you don't understand any more, please let me know by posting a message on the message board.

A Mouchette remix

A parody of the mouchette.net user interface

SEPTEMBRE 5, 2012

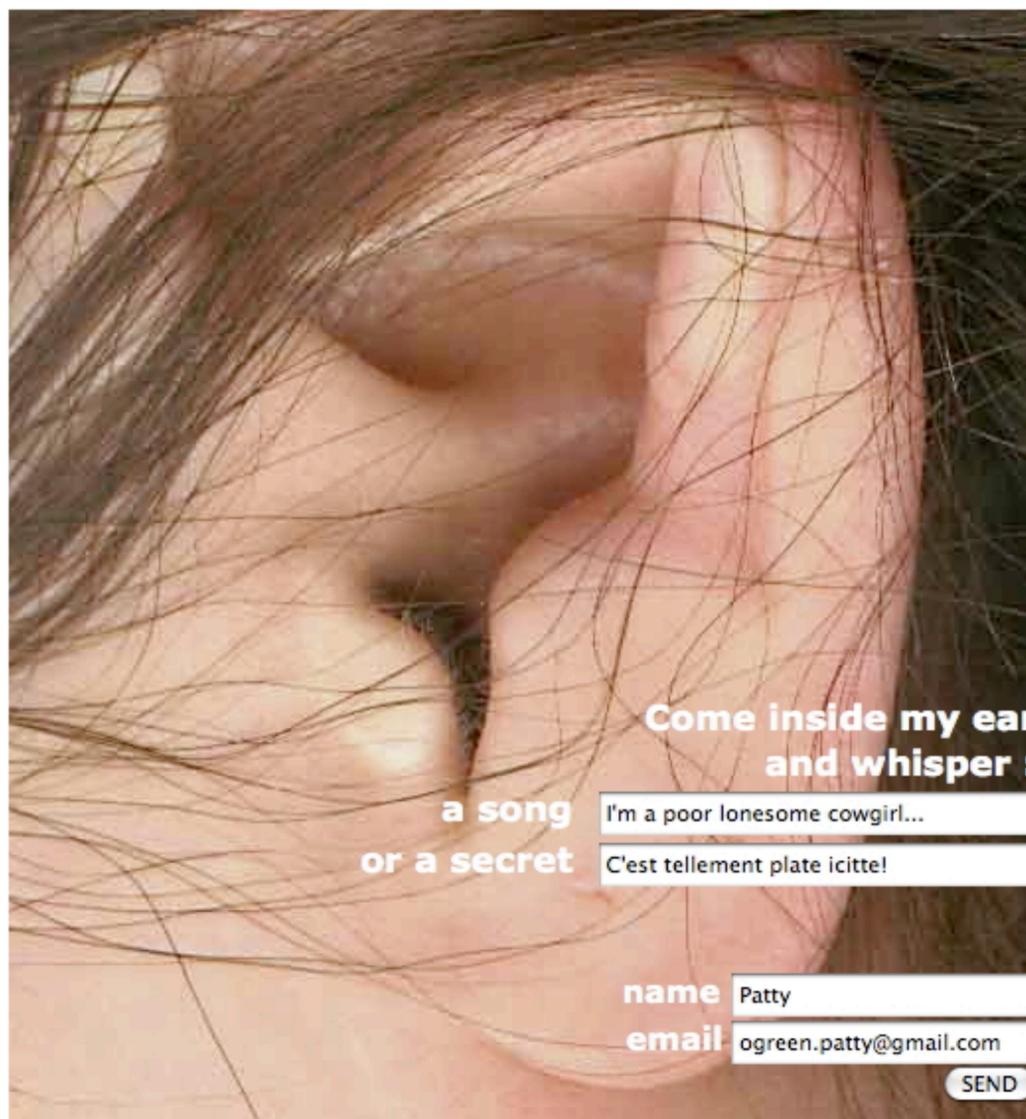

Chère Mouchette

J'aurais tellement aimé te rencontrer avant. Lorsque j'étais petite. Genre 9 ans. Il me semble que je t'aurais trouvée en un ou deux mots-clés.

Y'avait même pas d'Internet dans ce temps-là.

en tout cas

Ç'aurait été vraiment cool pareil de te voir apparaître dans mon ordi. Dans ma chambre, genre. Surtout la page avec ton oreille.

C'aurait été pas mal mieux que la fenêtre qui donnait sur la cour. Il avait fallu mettre des barreaux devant parce que y'avait des boys

Here the blogger writes about her own story through letters to Mouchette.

She uses the text fields to fill in her content in the form of whispered secrets.

a piece of chamber music: author Alvaro Rojas

Composer's Note:

The text of *Mouchette* is from the website www.mouchette.org, a strange and curious world created by Mouchette, a "nearly 13 year old girl" AKA Dutch Artist Martine Neddham (www.neddham.org).

Vocal parts marked *Spoken* need not necessarily observe the exact written rhythms (go for a natural spoken rhythm).

"Buzzing fly" sections are ad lib moments where players can make their best buzzing fly imitations on their instrument; fast, rhythmically irregular chromatic passages on wind instruments and fast tremolos while sliding up and down a string on string instruments would be a place to start. These parts should be heard as a soft, slightly annoying background texture.

Percussion for part II plays Glockenspiel and Triangle simultaneously.

This piece was composed for the 2012 Aventa Ensemble Composition Workshop.

The critical approach of the work is made by the users and published by them
Here an excerpt from a blog:

Entering the world of mouchette.org for me is like entering the alternate reality of my early teenage self.

Cue obsession with kitsch, suicide, and pretty/deranged pictures. Mouchette's genius lies in an interactive and unexpected experience created by an anonymous figure (human? Cyborg? Man? Woman? Child? Adult?) that doesn't supply all of the answers.

I believe this is a piece of net art because, really, what else would it be? It's a mash-up of cut and paste, interactivity, mystique and originality.

Mouchette embodies the new media artist as a prankster, whether that be luring viewers into releasing person information or leaving out enough information to keep us engaged and fascinated.

As a user 17 years after mouchette.org's inception, In 2013 I am still interested, engaged and curious while perusing the site.

Mouchette in the Stedelijk museum

Mouchette in the Stedelijk museum

Coder le monde Centre Georges Pompidou, Paris

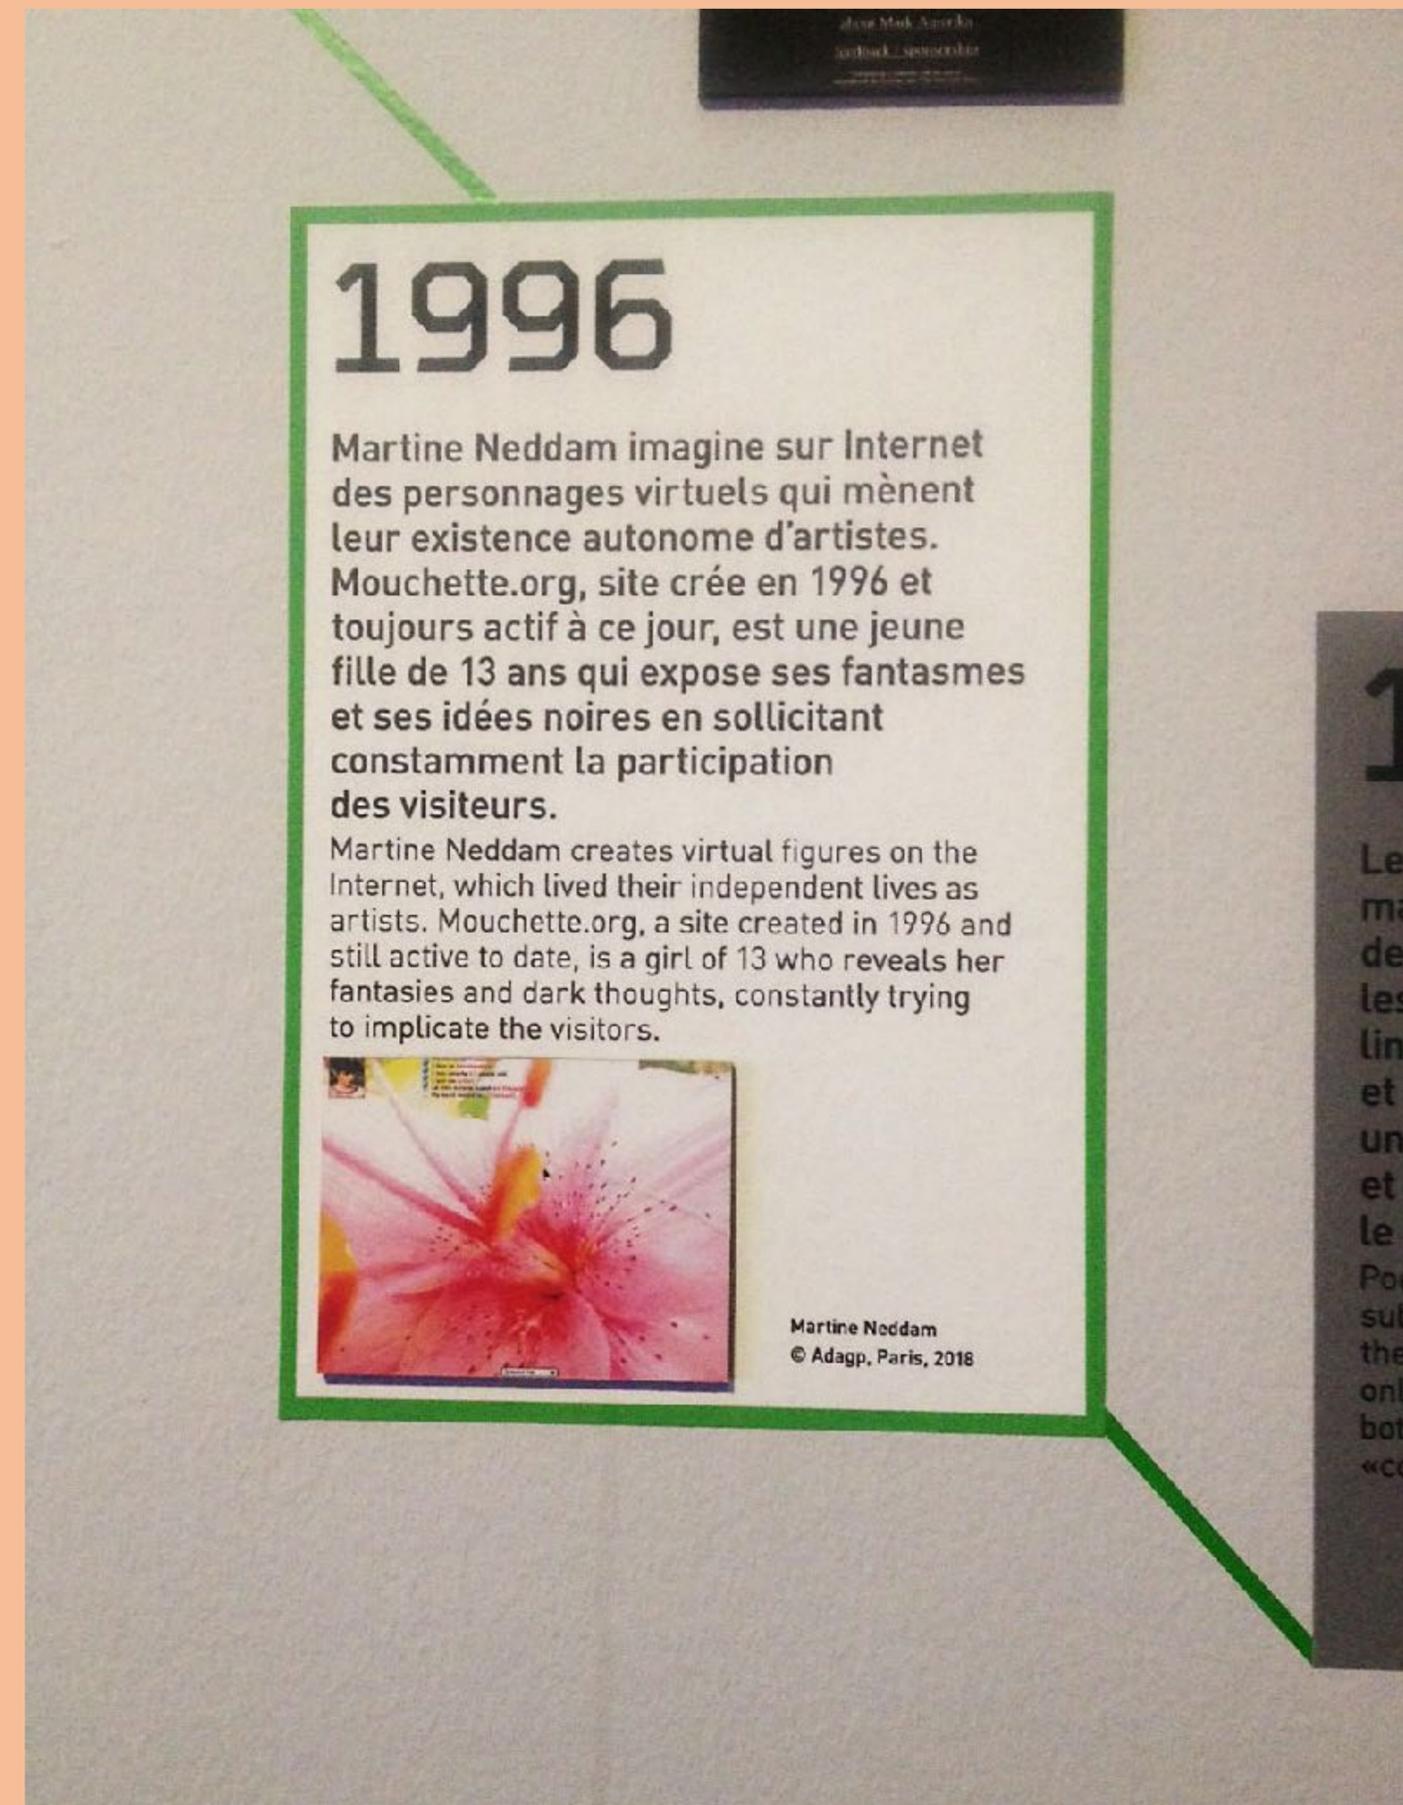

the show opened recently 15 june 2018

I got this photo from a friend last week

Nobody from the museum had informed me!

the date 1996 is big, this must be a timeline

it must be an information wall, about the history
of the web? digital art?

Martine Neddham creates virtual figures on the Internet, which lived their independent lives as artists. Mouchette.org, a site created in 1996 and still active to date, is a girl of 13 who reveals her fantasies and dark thoughts, constantly trying to implicate the visitors.

INVISIBLE LABOUR

Behind every website there are invisible workers

- the author

but also

- the person who registers the domain name

- the web host customer

- the system admin

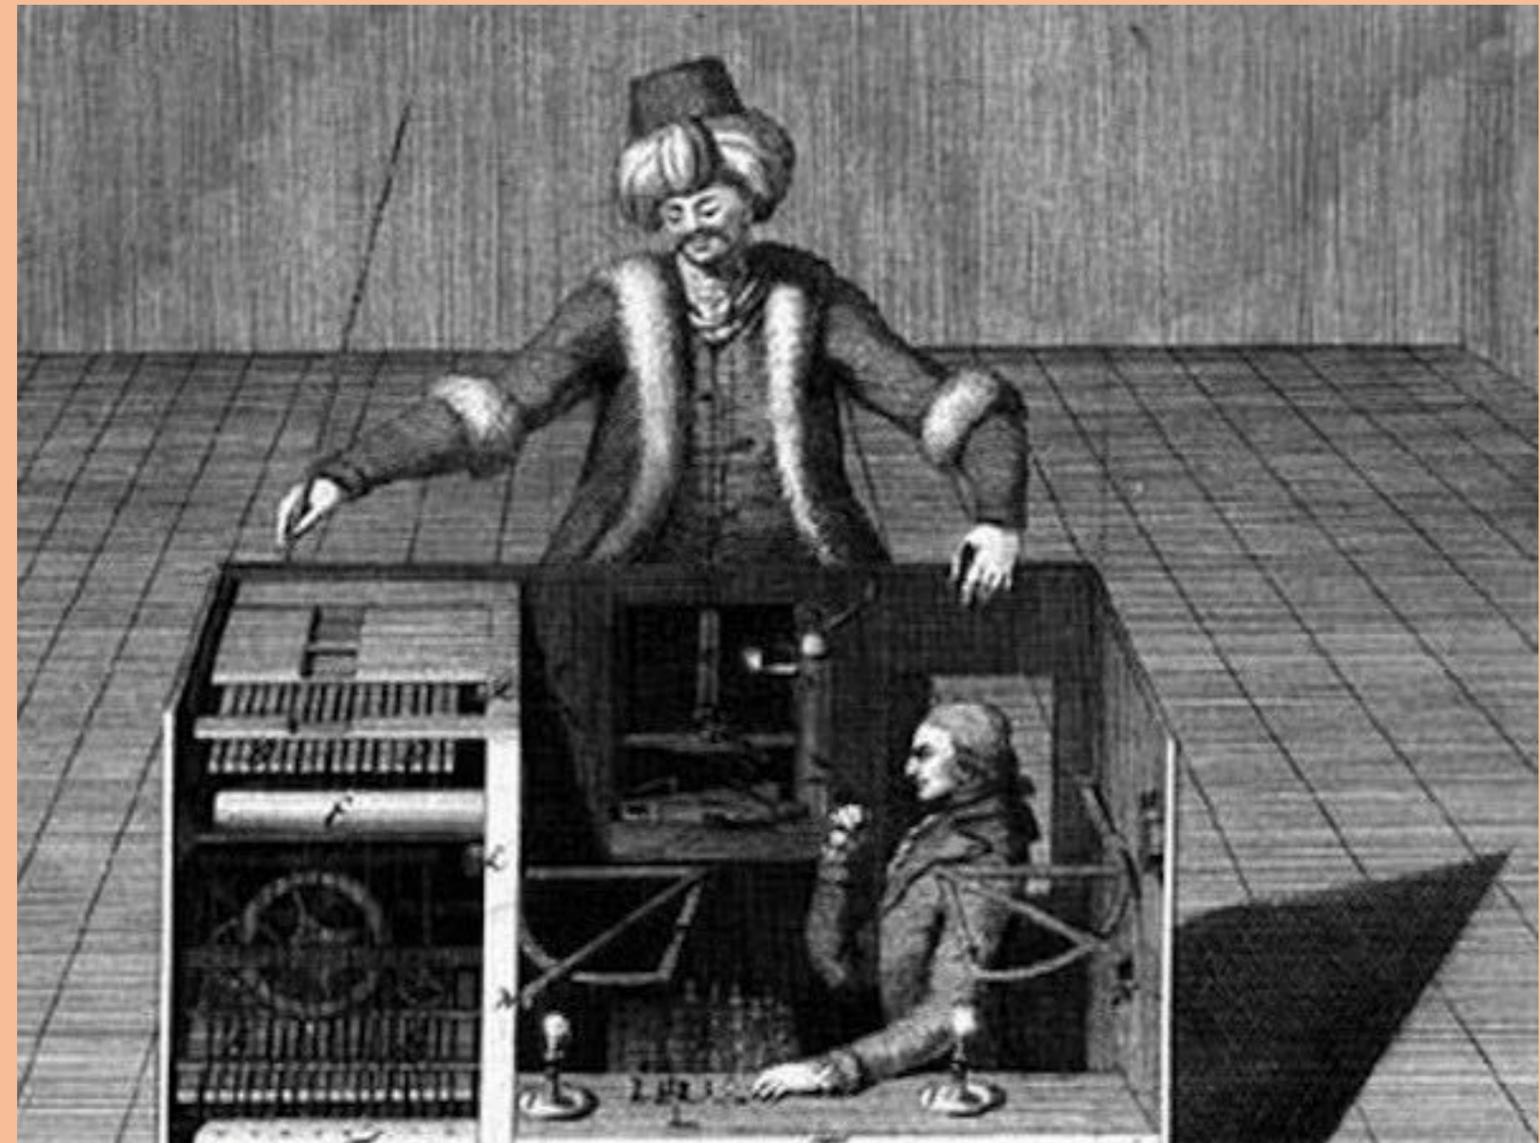

- the moderator

no website remains accessible just by itself

Don't exclude the artist from the preservation process

Think of all the other invisible workers, a chain of people processing the data

This is a plea to remove the blind spot we have for all the humans who process the data
